

ABOUT THE ARTIST

Compass Rose Design Jewelry was founded by Bay Area designer, Creek Van Houten, who has been making jewelry and stained glass for the last ten years with vintage and found treasures. Each one-of-a-kind piece is handmade, reflecting a bit of treasure renewed into something unique and beautiful. Every creation combines Victorian or vintage buttons, mechanical pocket watch pieces, skeleton keys, escutcheons, found objects, and other trinkets I discover along the way. Each Compass Rose Design creation is infused with a story- a button or pocket watch... from a corset or waistcoat or evening gown, passed through the ages to you – highlighted with glinting semi-precious stones, faceted glass and crystal.
